

# TUFAIL AHMED

+91-6206056516 — tufail.ahmed.ece@gmail.com — [LinkedIn](#) — [GitHub](#)

## Summary

---

Final-year Electronics and Communication Engineering student with skills in MERN Stack development and IoT. Proficient in HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB (Mongoose). Passionate about building modern web applications and smart IoT solutions while continuously learning new technologies and solving real-world problems.

## Projects

---

### The Offline Co. | HTML, CSS, JavaScript, Tailwind CSS

[GitHub](#)

- Developed a responsive frontend website for a digital well-being platform promoting immersive offline experiences.
- Designed reusable UI components with Tailwind CSS and modern responsive layouts.
- Optimized the website for desktop, tablet, and mobile devices.
- Deployed the application on Vercel and managed version control using Git and GitHub.

### Expense Tracker | HTML, CSS, JavaScript

[GitHub](#)

- Developed an expense tracking web application using HTML, CSS, and JavaScript.
- Implemented dynamic expense management and automatic total expense calculation.
- Designed a clean and responsive user interface.
- Improved JavaScript, DOM manipulation, and event handling skills.

### Weather App | HTML, CSS, JavaScript, Weather API

[GitHub](#)

- Built a responsive weather application using JavaScript and a Weather API.
- Displayed real-time temperature, humidity, and wind speed.
- Added dark/light mode and dynamic UI updates.
- Enhanced API integration and responsive design skills.

### Smart Blind Walking Stick | Arduino, C++, IoT

[GitHub](#)

- Developed an IoT-based smart walking stick for visually impaired users.
- Used Arduino Nano and HC-SR04 ultrasonic sensor for real-time obstacle detection.
- Integrated rechargeable battery, Battery Management System (BMS), and Type-C charging.
- Performed hardware integration, Arduino programming, testing, and prototype development.

## Technical Skills

---

- **Languages:** Java, JavaScript, C
- **Frontend:** HTML5, CSS3, Tailwind CSS, javascript,
- **Backend:** Node.js, Express.js
- **Database:** MongoDB[mongoos]
- **Tools:** Git, GitHub, VS Code, Arduino IDE
- **Core Concepts:** , Data Structures and Algorithms, DOM Manipulation, Responsive Design, IoT

## Education

---

### Haldia Institute of Technology

B.Tech. Electronics & Communication Engineering (CGPA: 7.76/10)

Haldia, West Bengal

2023 – 2027
